

PRODUCT INFO

SASH CORD HANK

DESCRIPTION

Stanway Sash Cord Hanks are made from braided polyester for a strong and reliable general-purpose cord. Ideal for sash windows, securing loads and a wide range of everyday applications, including boating, awnings, camping and trailers. The UV-resistant polyester construction provides good durability and high abrasion resistance, while the low-stretch design helps maintain a secure and consistent hold during use. A versatile cord for trade, maintenance and general-purpose applications. Proudly made in New Zealand.

FEATURES

- Braided polyester construction.
- UV resistant and abrasion resistant.
- Low stretch for reliable performance.
- Suitable for sash windows and general purpose.
- Also ideal for boating, awnings, camping, trailers etc.
