

PRODUCT INFO

PROCHALK[®] HIGH VISIBILITY

DESCRIPTION

Keson ProChalk High Visibility is formulated to produce bold, highly visible lines for applications where clear marking is essential. Designed primarily for exterior use, its stronger pigment provides excellent visibility while allowing the line to wear or wash away naturally within a few days. With a Permanence Rank of 2, it is suited to temporary marking tasks including corrections, plumbing, electrical work, roofing and masonry. ProChalk High Visibility provides dependable, consistent marking performance for trades that need lines that stand out clearly without remaining permanently. Proudly made in the USA.

FEATURES

- Produces bold, highly visible marking lines.
- Designed to wear or wash away naturally.
- Suitable for temporary exterior marking.
- Ideal for corrections, plumbing, electrical, roofing and masonry.
