

PRODUCT INFO

MAGNESIUM BULL FLOAT SET

GB01001

DESCRIPTION

The Goldblatt Magnesium Bull Float Set includes a squared end magnesium bull float (1219 x 203mm), a tilting bull float bracket, and two 1.8m push-button handles. The bull float features lightweight extruded magnesium construction, reinforcement ribs for added strength and a curved, honed face to help prevent snagging and reduce concrete build-up. The aluminium bracket provides adjustable blade pitch and fits 44mm push-button handles. The handles feature a swaged design with snap springs for secure connection and can be joined together for additional reach.

FEATURES

- Lightweight extruded magnesium bull float with reinforced ribs to help prevent warping.
- Curved, honed face helps prevent snagging.
- Bracket and handles made of lightweight aluminium.
- Adjustable tilting bracket for controlled blade pitch.
- 2 x 1.8m push-button handles provide extended reach.
- Easy-connect snap spring securely locks handles in place.
