

PRODUCT INFO

SQUARE MOUTH SPADES

DESCRIPTION

The Stanway Trade Square Spade is designed for soil preparation and landscaping tasks, including digging, turning over soil, breaking up clay and spreading compost. Its square blade is also suited to creating clean edges and working around garden beds. A foot tread provides additional downward pressure when digging into firm ground. The head is made from 100% tempered, heat-treated carbon steel for strength and durability.

FEATURES

- Ideal for digging, turning over soil, breaking up clay and spreading compost.
- Square blade for clean edges.
- Foot tread provides extra downward pressure.
- 100% tempered, heat-treated carbon steel head.
- **Hickory D-Handle:** Strong, shock-absorbing timber handle with a D-grip for comfortable, controlled use in closer digging.
- **Fibreglass D-Handle:** Strong, durable fibreglass handle with a D-grip for controlled use and excellent resistance to moisture, splitting and weathering.
