PLUMBERS SHOVELS

DESCRIPTION

The Stanway Trade Plumbers Shovel is designed for creating and clearing narrow trenches. Its narrow, pointed blade helps penetrate firm ground and provides precise digging in confined areas. Also suited to transplanting smaller plants and shrubs. A foot tread provides additional downward pressure when digging tough ground. The head is made from 100% tempered, heat-treated carbon steel for strength and durability.

FEATURES

- Ideal for narrow trenching and transplanting small plants.
- Sharp, pointed blade for penetrating firm ground.
- Foot tread provides extra downward pressure.
- 100% tempered, heat-treated carbon steel head.
- **Long Hickory Handle:** Strong, natural shock-absorbing timber handle providing added reach and leverage.
- **Long Fibreglass Handle:** Strong, solid-core handle providing added reach and leverage with excellent resistance to moisture, splitting and weathering.
