

PRODUCT INFO

DRAIN AUGER

TW-P25SM

DESCRIPTION

The Stanway Trade Drain Auger is designed for clearing blockages in pipes up to 50mm (2") in diameter, making it suitable for sinks, floor drains, bathtubs and other drainage applications. It features a 7.5 metre long high-carbon steel cable for greater reach. The cable is manually fed and retracted, with a thumbscrew to lock and unlock it in position during use. The ergonomic pistol grip provides weight support and comfortable handling. It also features a durable, impact resistant plastic drum cover and a smooth plastic grip handle for easy cable rotation.
