

PRODUCT INFO

RAFTER SQUARES

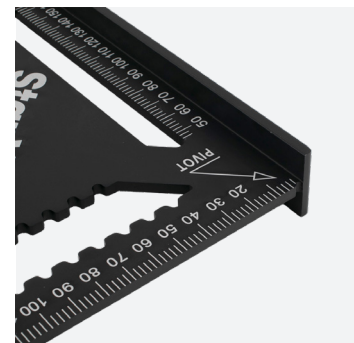

DESCRIPTION

The Stanway Trade Rafter Square is a go-to multi-functional layout tool, whether it's for rafter work or a quick 45° or 90° angle measurement, it makes everyday layout jobs faster and easier. Its solid aluminium construction and CNC-machined edges deliver reliable accuracy and durability, while the matte black anodised finish and permanent laser-etched markings make measurements easy to read. It also includes a common rafter conversion table etched on one side, scribing notches for easy marking, and a wide foot that provides a secure hold on material and doubles as a saw guide.

FEATURES

- Solid aluminium construction and CNC-machined edges for greater accuracy & durability.
- Permanent laser-etched metric markings for easy visibility.
- Common rafter conversion table etched on one side.
- Scribing notches for quick and easy marking.
- Wide foot provides a secure hold and doubles as a saw guide.
