StanWay TRADE

PRODUCT INFO

STRING LINES

DESCRIPTION

The Stanway Trade 80m String Lines are made from durable braided nylon, offering high stretch and excellent abrasion resistance for reliable performance on the worksite. Their fluorescent colours provide high visibility, making them easy to see during use. Supplied on a durable plastic spool for easy handling and tangle-free unwinding, they are ideal for laying out profiles, brick and block laying, and achieving accurate alignments across a range of construction applications.

FEATURES

- 80-metre length.
- Durable braided nylon construction.
- High stretch and abrasion resistance.
- Fluorescent colour for easy visibility.
- Durable plastic spool for easy handling and tangle-free unwinding.

Counter display boxes *are supplied in quantities of 20 string lines.*
