DOGYU®

PRODUCT INFO

NITOKU NAIL SETTER

DGNP185

DESCRIPTION

The Dogyu 185mm 'Nitoku' Nail Setter is designed for accurately driving nails into hard-to-reach areas and confined spaces, making it ideal for siding installation and finishing the final rows of flooring. Its specially shaped head allows nails to be driven flush into materials without damaging the surrounding surface. The wide striking head provides an easy target for blows, while the soft-grip handle helps absorb impact and protect hands during use. Designed for ease of handling, it is a practical tool for detailed finishing work.

90° ANGLED END

POINT END
